

PROFILE

Innovative Software Developer with a solid academic foundation from JKUAT and a passion for crafting elegant digital experiences. Having recently completed my academic coursework; I am awaiting the official graduation (expected July 2025).

I specialize in building modern web applications using React and mobile apps with React Native, and I am experienced in incorporating AI agents into workflows. Additionally, I have a strong background in content creation, video editing, and digital marketing, as evidenced by my work in building and managing a YouTube channel. I am eager to apply my technical and creative skills in a full-time role.
